Hello and thank you for contacting Thai American Introduction Service - THAIS

We are an international friendship club that specializes in providing the means for "foreign gentlemen worldwide" to find and correspond with women from Thailand through the use of international classified personal ads

The primary function of this service is to:

- Help "foreign gentlemen worldwide" to include United States, England, Europe, Germany, Italy, France, Switzerland, Holland, Canada, Australia etc., to make friendships in Thailand in order to develop relationships leading to romance, marriage, culture and language exchange or business.
- Help women living in Thailand or women from Thailand who are now living in a foreign country to find new friends "worldwide" for romance, marriage, culture or language exchange or business. English is used as the common language although not all the Thai women have English ability.
- On a limited basis we help American women (rarely) find friends in Thailand and Thai men (rarely) to find new friends in America.
- THAIS services are generally for marriage minded people, but not limited to the marriage minded. We occasionally have ladies and gentlemen who only seek friendships for penpals, correspondence, culture and language exchange or to find business partners and usually noted as such.

About THAIS - What our service offers:

- Website with the personal ads of Thai women w/photos (their contact information is available for purchase), FAQ's which include advice about letter writing and visiting Thailand, recommended travel books, maps and hotels, immigration, tourist and shopping links and lots of valuable info.
- Catalogs of the personals ads of Thai women - in quality black and white printed format. Includes addresses and contact information (for purchase).
- Personal classified ads placement in a Thai newspaper. Expensive but effective display ads as opposed to the more familiar personals ads.
- Personal classified listings - your photo and data is printed and distributed to all female applicants. **Read reverse side of this page for additional info.**
- Translation services - your introductory letter translated into Thai, make copies and then just fill in the woman's name in the appropriate place.
- Introduction services for travelers to Bangkok. (unavailable until further notice)
- We produce a high quality catalog of photos and descriptions of our Asian clients called "THAIS Magazine" and an Address List so that you may write to the women of your choice. THAIS recommends that you write to as many women as time may permit. You never know when a woman may become unavailable, so never limit yourself to only one. **When writing letters, please print neatly and clearly** so that the women can decipher your English more easily! Please note that airmail takes about two weeks in each direction. Also note that THAIS cannot guarantee that someone will respond to your letters, but we work diligently to find Thai women who are sincerely interested in friendships, relationships, etc. Although THAIS doesn't do background checks, we attempt to interview as many ladies as possible, which can give us an opportunity to "weed out" any insincere or undesirable types whenever possible. We try to take most of the photos ourselves to assure that the image in our catalog will match the individual pictured. We have two other services: "The Personal Classified Advertisement Service" in a Thai newspaper and "The Personal Classified Listing Service" with a photo. Also, THAIS can assist you with "travel planning" and assist you while visiting or touring in Thailand. **For a pre-travel consultation, email travel@thaisdc.com or call THAIS at 202-338-2664 in the USA.**

General comments, disclosures, cautions, notices, disclaimers etc:

- Take time, never rush into a marriage. It is your responsibility as a sensible adult to determine the sincerity and honesty of your new friend before becoming seriously involved with someone that you have just met and have not known very long. **Be cautious and use good common sense! As an adult, you assume responsibility for the appropriate and cautious use of our personals ads. We cannot do background checks on our male or female clients. We cannot guarantee the accuracy of our materials, although we try. Our data is only as good as what the applicants provide.**
- Due to the customs and social perceptions of Thailand and in the best interests of our Asian clients, we cannot accept prisoners as customers. Access to THAIS website is BLOCKED in Thailand for the privacy of our Thai clients, although it is not 100% blocked.
- For information about new U.S. Immigration laws concerning marriage, visas, spousal abuse and penalties for marriage fraud, contact an immigration attorney. THAIS disseminates information concerning U.S. Immigration Laws and makes certain "other" disclosures to our foreign female clients which is translated into their own native language. This is to inform them about the penalties for marriage fraud and to forewarn them about the risk of spousal abuse by marrying American men, as perceived by the US government. If you are **offended by the insinuations of the U.S. Government and "certain activist groups"**, that American men, who seek foreign brides, are "more likely" to be abusive spouses, then I urge you to contact your U.S. Congressman or Representative to voice your opinion. They need to hear from you, otherwise they may someday enact new laws which may impede you from seeking a foreign bride through the services of international personals agencies. THAIS website has some links to immigration information also.

About the founder of THAIS:

- The founder and staff of THAIS is dedicated to providing our clients and subscribers with the best quality service possible. The gentleman who founded THAIS has many years of "hands on" experience in the penpal business as an active participant. He started out the same as most everyone else. His dream was to someday find, get to know through letter writing, hopefully meet, develop a relationship and possibly marry a nice Asian woman. He decided to "quit dreaming and do something" by joining one of the many international penpal clubs. Consequently, he has had many interesting adventures visiting pen friends in Thailand. The founder, through his own personal experiences, knows how to provide the type and quality of service that can assist you to have the best chance for success in making your own dreams of finding a new Asian friend come true.
